Activation & Installation Totals

Activation & Install Total \$ _____ Monthly Total \$ _____

Installation Type & Fees

• If your Requested DSL number passes through a multi-line phone system or has a security system attached to that line, the Installation will require a telephone line split. • If your Requested DSL number has more than five, active telephone jacks, the Installation will require a telephone line split. • A telephone line split can either be performed by a qualified telephone technician, or will be included as part of the Optional Installation Charge. • Joink does not provide free technical support for networks - including the setup and configuration of routers. • For a Single Workstation connection, your computer needs to have a network card with a 10/100 Ethernet connection. • Networks require a router or server capable of being assigned a static or dynamic IP address. A hub alone is not sufficient. • Your DSL connection should be ready within 7 to 28 business days and is dependant upon underlying telco order and provisioning process. • The undersigned affirms that they have the authority to sign for the Company. • By signing, the Customer affirms and agrees that this document entails a binding Agreement by and between Joink, LLC and the Customer provided that a connection can be established over Joink, LLC's network via a digital subscriber line provided by the Customer's telephone carrier. • This Agreement shall be for a period of one (1) year beginning upon activation. An early termination charge of \$99.00 shall be assessed if the responsible party willfully terminates service before the anniversary date. • Payments are due in advance. Billing for the service will be prorated from the date of service activation. • In the event of a default, the undersigned shall be responsible for any fees, including but not limited to Attorney's fees and costs, incurred in the collection of any monies due for services rendered and/or equipment charges. • This document entails the entire Agreement and shall not be modified without the express written agreement of the Parties. • Customer agrees to abide by JOINK's Acceptable Use Policy which may be viewed on the Internet at http://www.joink.com/aup.asp or a copy can be provided upon request.
